賛成意見の解答例

I agree with this statement. I have two reasons for my opinion. If we can do sports in difficult weather, we can become stronger. Sports activities are also good for our health. If we drink a lot of water or sports drink we can still do sports during summer. Besides, because of coronavirus, our classes are often held online. This means we cannot see our friends and teachers. Face-to-face communication is very important. Doing sports together is a good chance for face-to-face communication. For these reasons, I think that schools should have sports club activities during the summer. (98 words)

反対意見の解答例

I disagree with this statement. I have two reasons for my opinion. Recently, the weather is getting warmer every year. In Japan, it is always humid in summer. It is easy to get heatstroke, even when we don't do sports. This is very dangerous for our health. Sport is good exercise, but most schools do club activities outside or in a gym with no air conditioner. This means temperatures are dangerously high. A break from sports club activities would leave students feeling refreshed. For these reasons, I think that schools shouldn't have sports club activities during the summer. (98 words)
